THE PROBLEM

People love BeReal. Then they drift away.

> *“I forget about it unless a friend mentions it.”*
>
> Occasional BeReal user, focus group

Daily users fell from about 15M to about 6M in 2022–23. One prompt a day; miss it, or the moment feels dull, and you skip.

BeReal Passport & Community Boards · Feature concept by Lashawn Fofung, MBA, CSM, CSPO

WHAT WE LEARNED

Three reasons people stop posting

1

Friends are the trigger

“I forget about it unless a friend mentions it.”

2

Ordinary moments feel not worth it

“I skip posting if I’m just sitting at my desk doing nothing exciting.”

3

The novelty wears off

“It kind of got old after a while.”

From a 5-person, 40-minute in-person focus group · October 2026

THE SOLUTION

BeReal Passport & Community Boards

Post your BeReal to a monthly board your squad shares, earn a collectible stamp, and save the month as a capsule. Opt-in, no filters, no public likes.

Friends are the trigger

→ boards you share with your squad

Ordinary moments

→ monthly themes make any moment fit

The novelty wears off

→ new stamp designs every month

HOW IT WORKS

Four steps, one habit loop

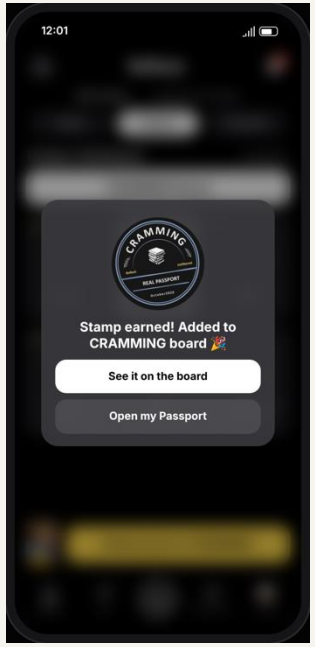

1. Capture

Take your BeReal like always and switch on Community Board.

2. Pick a board

Choose one of this month's six shared boards.

3. Earn a stamp

Your post lands on the board with a Real Passport stamp.

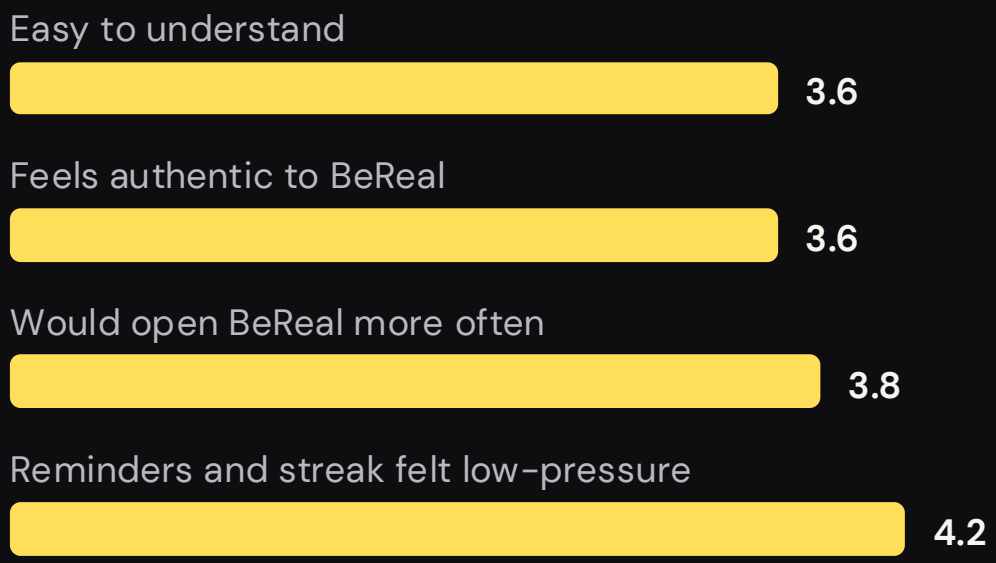

4. Save the month

Each board becomes a capsule in Memories.

WHAT USERS SAID

4 of 5 would open BeReal more often

Average score out of 5 · 5 survey responses

“I’d definitely open the app more often because of this.”

Occasional BeReal user

THE HONEST GAP

“There are a few too many button clicks in this flow.”

Would you want BeReal to launch it?

Yes 3 · Maybe 1 · No 1

THE IMPACT

Bring back the users BeReal is losing

5/5

Both occasional users rated “open BeReal more often” the top score

2.5×

Target daily opens per user, to validate in the MVP

4.2/5

Low-pressure score: opt-in, time-boxed, no streak-loss guilt

We’ll measure DAU / MAU · D7 and D30 retention · % of posts on boards · Taps from capture to post

Focus group of 5: these results show direction, not proof.

RECOMMENDATION

Refine, then retest.

01

Cut taps from capture to stamp

02

Make SEND vs COMMUNITY BOARD clear

03

Add a first-use explainer

Next: retest with 7–10 people → MVP with one friend group and one board → full rollout

Thank you. Let’s keep BeReal real.
